

BORE SIZES 4"/100mm - 12"/300mm

ORBINOX standard double acting pneumatic cylinders are specifically designed to suit ORBINOX knife gate valves.

Main features:

- End caps and barrels up to bore 1 2"/ 300mm are made of aluminium
- Piston rod in stainless steel
- Air supply can vary from 50psi/3,5bar up to a maximum 150psi/10bar
- Air quality requirements according to ISO 8573 -1 Grade 5:4:3 for normal processes, Grade 5:3:3 for cold temperature applications (min. -20° C water dew point); for cylinders with positioners Grades 3:4:3 (standard) / 3:3:3 (-20°C)

Options:

- End caps and barrels up to bore 1 2"/ 300mm in anodized aluminium
- Detachable clevis with different dimensions
- Magnetic limit switches available with internal magnetic kit
- Single acting up to 10"/250mm bore
- Manual override system (two piston rods)

Bore sizes ("/mm):

DN 4"/100mm, 5"/125mm, 6 3"/160mm, 8"/200mm, 10"/250mm and 12"/300mm.

Seal kit*: Items 5,6,8,13 and 14.

One -piece vulcanized piston**: Items 9 and 10

PART LIST

Item:	Description:	Material:
1	Barrel	Aluminum
2	Cap	Aluminium
3	Head	Aluminium
4	Piston Rod	AISI - 304
5*	O-Ring	Nitrile
6*	O-Ring	Nitrile
7	Circlip DIN472	Steel
8*	O-Ring	Nitrile
9**	Piston seal	Nitrile
10**	Piston	Carbon Steel
11	Self locking nut	Carbon Steel
12	Bushing	Nylon
13*	O-Ring	Nitrile
14*	Scraper	Steel + Nitrile
15	Tie rods	Carbon Steel - Zn plated
16	Washer	Carbon Steel - Zn plated
17	Nut	Carbon Steel - Zn plated
18	Bolt	AISI - 304
19	Self locking nut	AISI - 304
20	Clevis	AISI - 304
21	Lock pin	AISI - 304
22	Washer	Carbon Steel - Zn plated

BORE SIZES 14"/350mm - 16"/400mm

ORBINOX standard double acting pneumatic cylinders are specifically designed to suit ORBINOX knife gate valves.

Main features:

- End caps are made of aluminium
- Barrels are made of composite material
- Piston rod in stainless steel
- Air supply can vary from 50psi/3,5bar up to a maximum 150psi/10bar
- Air quality requirements according to ISO 8573 -1 Grade 5:4:3 for normal processes, Grade 5:3:3 for cold temperature applications (min. -20° C water dew point); for cylinders with positioners Grades 3:4:3 (standard) / 3:3:3 (-20°C)

Options:

- Magnetic limit switches available with internal magnetic kit
- Manual override system (two piston rods)

Bore sizes ("/mm):

DN 14"/350mm and 16"/400mm

Seal kit*: Items 7,8,9,12 , 14 and 17
